

# Success Cases

## CONTACT CENTER AGENTS

A **solution for Android and iOS using React Native**, which allows maintaining only one codebase for both platforms. This **app enables agents** who are in street to **consume contact center services**. Contact center services are served through a **multiplatform SDK developed by our team**

## Benefits

- High-quality native applications from a single codebase
- Fast time to market
- Write once, run everywhere
- Flexible, add native code

**Customer**  
Cloud Native Mobile  
Infrastructure Company
